

The reason of the shipment of a new bulletin is the importance of the subjects dealt with the city council of Alcorcón.

ALCORCÓN CITY COUNCIL

During today our president with D. Brown Pedro has met, Director of the Area of Cooperation of the city council of Alcorcón. The main reason was the cession of the stable premises where to be able to exert our functions of storage of humanitarian aid and recycling of computer science material. In the meeting it has been confirmed to us that we will have him in brevity. As soon as we have the news on it we will be to you informing.

Also, and this one one of the causes of this bulletin, has offered us the possibility of collaborating with the technicians of social education of the city council in a new plan of educative social action that will begin in September. One is giving educative access to the local population of Alcorcón in social exclusion, mainly smaller of 14 to 16 years expelled from the educative system for diverse reasons, by means of factories nonregulated of different matters that can serve as "bait" to integrate to them in the educative system again.

It is for that reason, that those of you who you are arranged to collaborate lending your educative knowledge and free time, you can be put in contact with our vowel:

In the next meetings that we maintain we will be able to say all the relative one to you to the schedule, if it exists remuneration, places of performance, affected group, etc.

CAMPAIGN OF COLLECTION OF MATERIALS TO FORM A SEAM FACTORY

Also, and because the Uruguayan ship school does not weigh anchor until end of July as we said to you in the previous bulletin, we have wanted to send this directed campaign to a very concrete group of people in Santa Catherine, women without use and studies. But that nevertheless has an unusual skill for the accomplishment of embroiderings and fabric crafts.

With it we obtained that they have a work, which they are independent and independent of its pair, often nonexistent and, coverall, that maintains to their family with dignity.

All the crafts which they make with his hands, fabrics, monederos and covers of moving bodies mainly embroidered, us will be it sending. We will cover the expenses to them of shipment because they are prohibitive for his pay, so that we pruned it to sell between all, friends, relatives, etc., throughout the year. Although we will make a species of swap-meet in Christmas, when it seems that the shared in common conscience awakes after a long annual lethargy.

Later the collected money will be given back knowing that monthly a pay to them able worthy to maintain to a whole family without luxuries goes up to around the

90 euros.

As curiosity we sent them periodically, according to to them they are exhausted, threads of all the colors and fabrics of cross point, a nonexistent material there, and that has much market in the zone by this reason. Although always it turns out to them more profitable to sell it here by the standard of life so under existing in its country.

By all it, you can collaborate, aside from contributing money exclusively directed to them, donating the following materials for its beginning:

Thread coils of all Telas type of all diverse Material type like magazines of patterns, needles, thimbles, bellboys, etc. Machines to sew in good state

Also that before, those of you who you are arranged to collaborate, you can be put in contact with our vowel:
