ELECTION OF THE PROJECT OF REFERENCE FOR YEAR 2007

We have decided that the chosen project to work in him during the next months is a project eminently educative and directed to the most underprivileged sector of the Bolivian society, the working children. For them east project based on a nutritional popular dining room is conceived and diverse factories of educative values that they help to alleviate the lost childhood of these children. You can see a first draft in the deprived zone of partners.

EXTINGUISHED PROJECTS

Comunicaros the refusal to the three subventions asked for for COMMUNAL PROJECT ESCUELA/SALON 2006 of Uruguay. Among other reasons, the nonproperty of Uruguay between the countries of greater priority in the bureaucratic and administrative zone, ties of Uruguayan the social and gubernativas institutions, and the lack of experience in writing of social projects by our part. We considered this finished stage like before the corruption generalized existing between the social, civil and local institutions of the district of Santa Catherine, which causes that it is humanly impossible to help the population, and to assure at the same time that the equipped resources are used in a suitable use.

SUBSIDIZED NEW PROJECTS

The complete projects you have available in the section PROJECTS of our Web and the information on the evolution of such you could be them seeing gradually according to are to us arriving within the DEPRIVED ZONE OF PARTNERS.
