

COLLECTION OF ANNUAL QUOTA 2007

During this month we are passing to the collection the annual quota of 25. In order to be able to face the future projects and to avoid to have molestos every year it is very important that this one is regularized. For it we recommended to you, by or of the populations benefitted by our projects, that socios/as that you do not have it domiciled you fill up the attached card and us you send it by mail, mail or by telephone. The individual quota is a small amount but joining the one of all it becomes a potable water network, bucodentales treatments for the children, educative equipment, etc. Of there our insistence in being able to receive it regularly. Thank you very much.

✂-----

Optional contribution:

- euros year
- euros trimester
- euros ?
