

EMERGENCY IN PERU we communicated to You which will be nuestra/vuestra forms to collaborate with the disagreeable events happened in the coastal region of Ica, Peru. For it two clear examples.

Local ours contraparte in Peru, the ONG Redesperu, works in the region of Cusco in diverse educative and social projects with populations farmers of limited resources. His coordinator, Jose Edwin, although resident in Sicuani have to his parents and brothers residing in Pisco with his respective families. Luckily all of them are well, although there are lost its houses, collapsed, and have died two brothers of its sisters-in-law. All have a relative and/or friend with misfortunes where 80% of the constructions no longer exist.

Our partner Almudena Herrera was of vacations in Peru in these fatídicas dates although at that moment she was in the valley of the Colca and they did not feel anything of the tremor. In fact, it has been knowing the projects that this ONG makes in the zone and contacting with the population, taking advantage of his stay in the country.

Both organizations we are going to work in a project oriented to the children, of reconstruction of some school of the zone and/or its dowries and equipment of water, light, educative material, etc. In these days Jose Edwin one is in the affected zone to value where, how and when to execute the project, according to the deficiencies and necessities of the infantile population.

On the other hand, we are in contact with the enemy with the Council of Social welfare and Cooperation of the city council of Alcorcón to try to act jointly in the project in the smaller possible time that they allow the present circumstances.

For that reason we requested your economic collaboration to you through our habitual banking accounts, above reflected. All enter account during the months of August and September will be destined to this aim.

SANITARY PROJECT IN SICUANI (PERU) we present to You also the future development, between the months of December and February, of a sanitary project made by our two medical partners Emilia Ca'ncer and Yolanda Perez in the zone of performance of the Peruvian ONG Peru Networks and, presumably, also referred the sanitary consequences of the present seísmos. In principle, their objectives will consist of supporting the sanitary services of the health centers, the clinic Peace and Well and Medical Center APAINE in benefit of children discapacitados in the zones of Cusco and Ayacucho. For that reason, if you wish to collaborate with this project you can donate your medicines to us with more of a year of lapsing, and apparatuses of medical utility like thermometers, digital and measuring tensiómetros of glucose in blood.
